

SMART MEETING
MAKE COMMUNICATION EASIER

TS-0604M & TS-0605M Series

Digital Conference System

System Features >>>

⑤ 50cm high intelligibility pickup distance

Pickup distance of discussion unit can reach 50cm. It can reach 30cm even in noisy environment.

⑤ Excellent feedback suppression

With independent audio processing function, can suppress feedback from microphone and ensure sound quality.

⑤ High quality audio transmission

Using professional 8-core air-line to transmit audio signal, and with long distance transmission signal amplifier, audio transmission is not affected by distance.

⑤ 4 Conference mode

First-in-first-out (FIFO) mode, normal mode, free mode, apply for a speech.

⑤ Conference speech tracking

Support one camera to realize camera tracking, and cooperate with camera tracking controller to achieve multi-channel video automatic tracking function.

⑤ Multiple Speech Units

Available in desktop, embedded, check in and voting functions.

System Features

Digital transmission
Camera tracking
Conference management
Conference voting
4 Conference mode

TS-0604M Digital Conference System Controller

- * Four conference modes: FIFO (first-in first-out mode); NORMAL (normal mode); FREE (free mode); APPLY (apply speaking).
- * Function to limit the number of spokesman: adjustable speech units number: 1, 2, 4, 6; chairman unit is not limited by it.
- * Super extended limitation function; one controller can connect up to 128 units; one system can support up to 4096 units.
- * Audio processing uses digital equalization module, noise reduction processing module to ensure sound clear and bright; there are two audio inputs and four audio outputs to connect peripheral devices.

TS-0605M Digital Conference System Extension Controller

- * Smart touch buttons, easy operation. With recording, playback control, mode, quantity switching and volume shortcut key.
- * With 4 meeting modes: FFIO, NORMAL, FREE, APPLY.
- * Spokesman quantity limitation: option for 1, 2, 4, 6. Chairman is not limited.
- * Support Max 30 pieces microphone units.
- * Hand in hand cable connection way, easy for installation and maintain.

TS-0627/TS-0627A Digital Conference System Chairman/Delegate Unit (Discussion, Voting & IC Card)

- * Unique patented technology, specially designed anti-RF radio frequency interference tube, which can completely eliminate the noise, Showing a perfect high-level conference environment.
- * Professional heart-shaped condenser microphone core, Very high sensitivity and voice clarity; And with a ring of red & green indicator light when speaking.
- * When the red ring light is on, it means somebody is speaking; when green is on, it means apply for awaiting speech.
- * Use the professional 8 core aviation plug by cascading units, and with the metal fixed nut to avoid losing and falling.
- * 5 There are 5 multi-functional buttons for voting, election and meeting evaluation. Using silicone keys, feel good.

TS-0621/TS-0621A Digital Conference System Chairman/Delegate Unit

- * Unique patented technology; with anti-RF tube to prevent noise and secure a perfect conference environment.
- * Professional cardioid capacitor microphone core; with high sensitivity and clear voice; with red and green annular indicator light.
- * Red indicator light means MIC is on; green indicator light means applying for talk.
- * Adopt professional 8 core aviation connector; with metal nut to prevent loose.
- * Chairman unit has the priority right to control delegate unit.
- * Chairman unit position is no limited, it can be placed anywhere according to user demands.
